

SAN MIGUEL: STATUS OF EXISTING COMMUNITY FACILITIES

FACILITY STATUS IS ASSESSED ON A SCALE OF
VERY COMPLETE (A) TO VERY INCOMPLETE (D)

A	B	C	D
---	---	---	---

COMMUNITY FEATURES		STATUS	NOTES
Infrastructure	Water Supply ¹	A	Existing supply is adequate to meet existing demand
	Water System*	C	High per capita cost of needed improvements
	Sewer System*	A	Low per capita cost of needed improvements
	Storm Drainage*	D	Very high per capita cost of needed improvements
	Solid Waste	A	Landfill capacity until 2051 (Paso Robles) and 2042 (Chicago Grade)
Transportation	Street Maintenance	A	Pavement Condition Index (PCI) of 64 percent (within the “good roads” category)
	Street & Highway System*	A	Low per capita cost of needed improvements
	Bike Lanes and Paths	B	The bike system is 41 percent complete
	Transit	B	Two bus routes with one stop
	Park-N-Ride Lots	A	One lot with 10 parking spaces
	Sidewalks	C	The sidewalk system is 27 percent complete
	Streetscape Facilities*	C	High per capita cost of needed improvements
Public Facilities	Public Safety Buildings (Fire)	A	Adequate existing facilities
	Public Safety Buildings (Police)	B	Police services provided from a Sheriff patrol station in Templeton
	Community/Neighborhood Parks	C	Parks provided at 31 percent of County standard
	Trails	D	None
	Libraries	B	Library space provided at 63 percent of County standard
	Community & Civic Facilities	A	One community hall, one senior center, and one community center
	Public Services Buildings	B	One Community Health Center
	Schools	A	School capacity is greater than existing enrollment

¹ The water supply in the Paso Robles Groundwater Basin is in serious condition.

* It is difficult to measure existing conditions quantitatively for these facilities. In these cases, “cost per capita for near-term improvements” is used to determine the facility’s “status.” The per capita costs for these facilities range from “low” being less than \$180 per capita and “very high” being greater than \$939 per capita. It should be noted that cost per capita is used for comparative purposes only and does not represent any proposed costs or fees to individuals or households.
